## EXPERIENCE

### TECDP Software Developer Intern

#### Cigna

📅 May 2021 – Aug 2021    📍 Philadelphia, PA (Remote)

- Migrated JBoss EAP SOAP service to a REST API with Golang.
- Created API to send data to a local SQLite database for proof-of-concept.
- Designed web-app concept in Angular for tracking patients' HbA1c values.
- Integrated a Rasa ML model chatbot and Angular frontend with an API.

### NLP Research Assistant

#### RPI Undergraduate Research Program

📅 Jan 2020 – May 2021    📍 Troy, NY

- Developed data correction post-processing scripts in Python.
- Performed 500+ subjective evaluations using Amazon Mechanical Turk.
- Formatted datasets for use in Google's BERT NLP model.
- Co-authored an academic paper about a SOTA corpus for common-sense inference.
- Published a paper on improving SOTA data-to-text generation

### Fullstack Developer

#### Smartrider: Rensselaer Center for Open Source

📅 Jan 2020 – Present    📍 Troy, NY

- Co-founded an open source, all-in-one mobile transportation app for RPI students.
- Released a stable prototype with Flutter frontend and Firebase back-end.
- Designed architecture for bus and rideshare models using Business-Logic Components (BLoC) pattern.
- Created REST APIs and Firebase cloud functions for updating bus routes.
- Made prototype UI for shuttle and bus scheduling panels using Flutter widgets.
- Built Firebase cloud functions for a ridesharing order and queue system using Hypertrack SDK.

### Programming Team Member

#### FRC Team 41 Robotics

📅 Sep 2015 – May 2019    📍 Warren, NJ

- Worked on a 3D-printed drone using Autodesk Inventor and Raspberry Pi Zero W.
- Developed a touch screen GUI with Tkinter for an intuitive driver station used in competitions.
- Built HTML, JS & CSS front-end for a team-scouting application that analyzed 200+ teams at tournaments.
- Taught basic C++ programming to 10+ new members.

## EDUCATION

### B.S. in Computer Science

#### Rensselaer Polytechnic Institute

📅 Sep '19 – May '22    📍 Troy, NY

- GPA: 3.49/4.00
- Courses: Data Structures, Computer Organization, Intro to Algo., Software Documentation & Design, Principles of Software.

## LEADERSHIP

### Social Chair

#### RPI Philippine American League

📅 Jan '21 – May '21    📍 Troy, NY

- Contributed to weekly executive board meetings.
- Led club-wide activities for general body meetings of 20+ participants.
- Organized intercollegiate event of 30 participants between Filipino culture clubs.

## PROJECTS

### FakeBlock

#### Frontend Developer

📅 Jan '21 – May '21    📍 Troy, NY

- A deepfake detection browser-extension made with TypeScript and TensorFlow.
- Created script for injecting collapsible DOM elements into websites.
- Designed dynamic results page UI with React and material-ui.

### Ongatchi

#### Developer

📅 Apr '20 – Oct '20    📍 Green Brook, NJ

- Tamagotchi-like app that eats your music
- Created GUI with Tkinter and Python.
- Implemented Last.fm API to track users' music listening history.

## SKILLS AND TOOLS

- **Languages:** Python, TypeScript, JavaScript, C/C++, Dart, Golang, Java
- **Tools:** Git, Firebase, React, Angular, Flutter, Amazon Mechanical Turk
